### **Abstract**

The paper illustrates two methods for identification and evaluation of the significant environment aspects of a company that implements an environment management system (EMS), for environment performance improvement.

One of the methods was applied in order to identify and evaluate the significant environment aspects of Compania Apa R. A. Brasov, that implemented the environment management system (EMS), starting with 2003 January and obtained the certification on July 2004.

*Keywords:* company, environment, Environment Management System, evaluation
