Abstract

The essay presents the Sixth Environment Action Programme of the European Community entitled "Environment 2010: Our future, our choice", which covers the period from 1 January 2001 to 31 December 2010. The programme has been guided by the Fifth Environment Action Programme (1992-2000). This paper describes the U.E priorities regarding four important areas: climate change, nature and biodiversity, environment and health, management of natural sources and waste.

Keywords: climate change, biodiversity, environment, health, management, natural resources
